Spoken production A2

Spoken interaction A2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SOCIAL AND POLITICAL ACTIVITIES

Kyrenia

MUNNIC

MUNNIC was a Model United Nations conference held in North Cyprus in 2025, organized by students and teachers in

collaboration with a local school. The event aimed to simulate the environment of the United Nations, encouraging participants to debate global issues and draft resolutions

As a volunteer administrator, I supported the organization and smooth operation of the event. I assisted in coordinating committee sessions, managing votes, facilitating resolution discussions, and helping delegates structure their final resolutions.

HOBBIES AND INTERESTS

● **Programming**

Passionate about developing software that works, not just professionally, but also in my personal time. I'm a strong supporter of Linux and open-source technologies.

● **Cybersecurity**

I believe that understanding offensive security is essential for writing secure software. That's why I'm also interested in cybersecurity and penetration testing, experimenting on both local and online(HackTheBox) resources.

● **Cooking**

Outside of being a geek, I'm an avid home cook. I love experimenting in the kitchen, seeing what works and what doesn't.
